

Real people. Real results.

Chromax® promotes healthy blood sugar, supports cardiovascular health and increases energy.

"I have been taking Chromax for 3 weeks now. I feel more alert and take my Chromax to work with me so I can take my daily dosage after I eat lunch. I love the fact that this product helps regulate your metabolism and your insulin function! I have family members who are diabetic and have high blood pressure, and I am trying to be proactive with my health so I can be as healthy as I am able to. Thanks for such a great product!"

Pamela, Spring Lake, NC

"The first thing I do every morning after getting out of bed is to take Chromax. I feel stronger and healthier after taking Chromax. I feel like I burn more calories and my food cravings are controllable."

Clara, Indianapolis, IN

"...I was told I am a borderline diabetic during my last physical. I have had another since and was asked what changes I have made in my life. I told my doctor that I take chromium picolinate 400 mcg daily. He said to keep it up because my blood work shows it to be working from my last visit."

Jamey, Southington, CT

Look for Chromax in the vitamin aisle at your local CVS/pharmacy, Walgreens, Rite Aid, Brooks-Eckerd, Mays/Med-X, Duane Reade, Longs, Kmart, Kroger, Frey Meyer, Albertsons and other drug, food and supercenters.
